**Lean n Fit - with Irvingia** Revolutionizes appetite control with a unique combination of proven appetite reducers. **IRVINGIA:** A west African plant quickly gaining notoriety as an incredible agent for weight loss. Irvingia reduces the amount of glucose that is converted to fat in the body, reduces the amount of starches absorbed as sugar, and blocks the activity of leptin which in turn can turn off hunger messages in the brain. In the largest placebo controlled human study, those taking Irvingia lost 28 pounds over a ten week period. **Caralluma Fimbrata:** Is an appetite suppressant used by indigenous peoples that chew it for physical endurance and to stop hunger. **Nitrogenous base:** Is a unique source of isoflavone puerarin shown to enhance neurotransmitters including serotonin, GABA and gluconate. **Green Tea:** Contains natural energy metabolites to prevent fatigue from weight loss and improve brain function.

**Contraindications** None reported to date. If a reaction occurs, discontinue use and consult a doctor.

#### INGREDIENTS:

**Nitrogenous Base and Driving Ingredients:** Irvingia Gabonensis (seed), Paulina Cupana (seed), Caralluma Fimbrata (Aerial parts), Kudzu (Root pueraria montana), DNA, RNA
